Message

Dear Students,

Aklia Educational and research society aims to provide world class quality education to its students. The institutes run by the society are nurturing students on value based education keeping the following main components in focus : Discipline, Team work, Quality Education, work Culture, Human Value and personality Development.

Aklia Educational and Research society established Aklia Polytechnic College which is committed to provide academic excellence, personality development, interpersonal innovation and communication skills to all its students. The institute provides an ideal environment to our students and faculty in the areas of Human Transformation, Social Research, Consultancy and Training. We are committed to nurture creative thinking and sharp intellect amongst our students.

The institute is dedicated to spreading Quality education so as to realize the full physical, social, emotional and intellectual potential of each student. The programmes at Institute provides its students with challenge, stimulation, variety and flexibility.

Message

Akliya Polytechnic College was set up under the aegis of Akliya Educational and Research Society at Bathinda, Punjab in 2008.

Today it enjoys the status of an 'A' grade Institute with excellent infrastructure. Its qualified, young and dynamic faculty nurtures the students and helps them to imbibe advanced knowledge and skills in the fields of engineering, technology and applied sciences.

Beyond the domain of academics, Akliya Polytechnic College organizes programmes which help the students to acquire market oriented skills and tools, thereby, enhancing their employability. Personality development programmes at the Institute prepare the students to hone their latent skills in human relationships and management.

The Institute provides excellent hostel accommodation for both boys and girls. The hostels are under the charge of wardens who not only take care of the daily needs of the students but also ensure that their wards are comfortable. In fact the wardens play the role of secondary parents and ensure that their students feel at home during their study programme.

With Akliya Polytechnic College having come of age, the Akliya Foundation, which is managed by hard-core professionals and philanthropists, has now defined the following objective for the Institute:

Er. Sukhwinder Singh

Principal Akliya Polytechnic College

Digital Cards are issued to students for fast Processing of Library. All the information of students & book are available on Desktop Pc's and also saved in the students cards.

COMPUTER LAB

Computers are a way of life. No successful Technician can survive without fully utilizing the potential and speed that is given through computerization. That is why Institute has created the most advanced computers center. All the Computers are connected via a local area network (LAN) using the Window NT Family OS along with the complete suite of applications from MS Back office.

WI-FI CAMPUS

The College have 24 hrs. Internet Facilities. The students can access internet. Using Wi-Fi internet Technology 24 hrs.

INDUSTRIAL VISITS

A first-hand feel of industry centric environment can be experienced by students during Industrial visits, which are regularly organized. Engineering & Technology concepts of operating systems, data communication, digital electronics, electronics security, power electronics etc can be better understood during these visits

PROGRAMME STRUCTURE

The course structure, which is spread over six terms, each odd semester from Aug. to Dec. and even Semester Jan. to May. is relevant to every level of curriculum scheme. Students develop understanding through compulsory grounding in Engineering & Technology and depth by concentrating on electives in particular functional cross disciplinary areas.

TRAINING

At the end of the 2nd year, the students are required to undergo training in the industry for a period of about 6 week. This gives them an opportunity to learn through practical experiences. Each student is assigned a faculty guide who supervises the project undertaken by the student. At the end of the training period, students are required to submit a written project report, which is evaluated by a panel of experts. This is a compulsory component of curriculum and is designed to provide students an exposure to develop an understanding of ground realities.

SEMINAR & CONFERENCES

The Aklia Polytechnic College provide an environment which is fully conducive to all academic pursuits. In order to update the knowledge of the students and teachers while keeping them abreast with latest research in respective areas of their interest, Seminar Academic Interfaces, programme are organized at Aklia Institutions.

FACULTY

The College has high quality, experienced, highly motivated and dedicated faculty team to ensure academic excellence.
